SEND CLOSED AND SEPERATELY

Please fill out in block letters

1. Designation of the invention

--

2. Indication of involved inventors

Name	First name	Nationality	Official position and acad. degree	Department (Address, email, phone, fax)	Private address and phone	Share (%)

3. Description of the invention

Please give a short description of the invention which includes important citations and which answers to the following questions (Please use a separate page):

3.1. Which technical problem shall be solved by the invention?
3.2. How has the problem been solved till now? Please note the current state-of-the-art.
3.3. What are the disadvantages of the known state-of-the-art?
3.4. Please describe how the problem is solved by the invention.
3.5. What is new in particular? What is the core of the invention?
3.6. What essential or additional advantages are achieved by the invention?
3.7. Please give keywords which describe the invention!

4. Development of the invention

4.1. When exactly has the invention been developed? Has it been developed within one or several calendar years?
4.2. Does the invention lie in the workscope of the inventor/s?
4.3 Was the invention developed within the scope of a Diplomarbeit, PhD-thesis or a research project? IF yes: a) Has the invention been made within the scope of the official duties? b) Did the inventor/s use University's experiences during the development of the invention?
4.4. Please mention and/or annex your own publications in the scope of the invention.

4.5. Has the invention already been published orally or in written? (If yes, please note time and place.)

4.6. Is the scope of activity in which the invention has been developed a subject of third-party funds? (BMBF, DFG, co-operation treaty)
If yes, please specify:

5. State of development:

5.1. Does a proof of concept already exist?
If yes, please specify (prototype, etc)

5.2. Is any publication concerning the invention intended? If yes, please specify when:

5.3. Does any connection to companies already exist? If yes, please specify:

5.4. Please note the possible areas of application of the invention.

6. Statement of the direct supervisor if not mentioned as co-inventor under section 2.

Name of the supervisor:

I hereby confirm that the before mentioned questions have been completely and truly answered and that to my knowledge no other person despite those mentioned in section 2. were involved into the invention as inventor/s.

Signature,

Time, place
